## Symbols

The following standard symbols are used in Statistics Canada publications:

- . not available for any reference period
- .. not available for a specific reference period
- ... not applicable
- 0 true zero or a value rounded to zero
- 0s value rounded to 0 (zero) where there is a meaningful distinction between true zero and the value that was rounded
- p preliminary
- r revised
- x suppressed to meet the confidentiality requirements of the *Statistics Act*
- E use with caution
- F too unreliable to be published
- \* significantly different from reference category ( $p < 0.05$ )

## Acknowledgements

Statistics Canada would like to thank all of the respondents and data suppliers whose participation has enabled us to provide the statistical information contained in this publication.

The information found in this publication could not have been produced if not for the cooperation of our respondents and data suppliers.

This publication was prepared by **Kathie Davidson**, **Conrad Ogrodnik**, **John Scollie** and **Bev Pomfret** of the Aviation Statistics Centre (ASC) of the Environment, Energy and Transportation Statistics Division (EETSD) under the general direction of **Kevin Roberts**, Director, EETSD, **Michael Scrim**, Assistant Director, EETSD and **Ed Hamilton**, Chief, ASC.

## Highlights

---

- For the fifth year in a row, the number of aircraft take-offs and landings at Canadian airports with NAV CANADA air traffic control towers and flight service stations decreased slightly compared to the previous year. These 93 airports reported 5.5 million movements in 2013, down 1.8% compared to 2012.
- There were 4.0 million itinerant movements (flights from one airport to another) recorded in 2013. These airports handled 1.7% fewer movements (-66,891 movements) in 2013 compared with 2012.
- Local movements (flights that remain in the vicinity of the airport) declined 2.3% (-34,459 movements) in 2013 compared with 2012.

## **Analysis**

---

For the fifth year in a row, the number of aircraft take-offs and landings at Canadian airports with NAV CANADA air traffic control towers and flight service stations decreased slightly compared to the previous year. These 93 airports reported 5.5 million movements in 2013, down 1.8% (-101,350 movements) compared to 2012. Toronto/Lester B. Pearson International, Ontario (433,610 movements) followed by Vancouver International, British Columbia (301,725 movements) continued to be the most active sites in 2013.

There were 4.0 million itinerant movements (flights from one airport to another) reported in 2013. This represents a decrease of 1.7% (-66,891 movements) compared with 2012. The year-over-year variations ranged from an increase of 14,778 movements (+10.7%) at Edmonton International, Alberta to a decline of 14,326 movements (-28.7%) at Edmonton City Centre, Alberta. The growth in movements at Edmonton International Airport can be partially explained by the migration of aircraft from Edmonton City Centre Airport which closed on November 30th, 2013. Year-over-year decreases in the number of itinerant aircraft movements were reported by 58 airports.

In 2013, there were 1.5 million local movements (flights that remain in the vicinity of the airport) recorded. This represents a decrease of 2.3% (-34,459 movements) compared with 2012, and the sixth consecutive annual decline. Montréal/St-Hubert, Québec (91,063 movements) followed by Boundary Bay, British Columbia (84,120 movements) reported the largest number of local movements in 2013.

### **Itinerant movements: domestic, transborder and international**

There were 3.3 million domestic itinerant movements reported at 93 Canadian airports in 2013, a decrease of 1.8% (-60,489 movements) from 2012. Vancouver International, British Columbia (226,572 movements) followed by Calgary International, Alberta (193,740 movements) and Toronto/Lester B. Pearson International, Ontario (184,831 movements) reported the greatest number of domestic itinerant movements.

Ninety-three airports reported 505,175 transborder itinerant movements (between Canada and the United States) in 2013, down 1.4% (-6,988 movements) from the previous year. Year-over-year decreases were reported by 57 airports. Toronto/Lester B. Pearson International, Ontario reported 185,271 movements. This represents 36.7% of the total transborder itinerant movements.

In 2013, seventy-nine airports reported 137,021 other international itinerant movements, up 0.4% (+586 movements) from 2012. Toronto/Lester B. Pearson International, Ontario (62,422 movements) followed by Montréal/Pierre Elliott Trudeau International, Québec (26,226 movements) and Vancouver International, British Columbia (19,738 movements) reported the largest number of other international movements in 2013. The movements reported by these three airports represent 79.1% of the total other international itinerant movements.

- 401-0029 Domestic and international itinerant movements, by type of operation, airports with NAV CANADA towers, annual
- 401-0030 Aircraft movements, by class of operation, airports with NAV CANADA flight service stations, annual
- 401-0031 Aircraft movements, by civil and military movements, airports with NAV CANADA flight service stations, annual
- 401-0032 Itinerant movements, by type of operation, airports with NAV CANADA flight service stations, annual
- 401-0033 Itinerant movements, by instrument flight rules, visual flight rules and runway 88, airports with NAV CANADA flight service stations, annual
- 401-0034 Itinerant movements, by type of power plant, airports with NAV CANADA flight service stations, annual

|          |  |
|----------|--|
| 401-0035 | Itinerant movements, by aircraft maximum take-off weight, airports with NAV CANADA flight service stations, annual             |
| 401-0036 | Domestic and international itinerant movements, by type of operation, airports with NAV CANADA flight service stations, annual |
| 401-0037 | Annual aircraft movements, by class of operation and type of operation, airports without air traffic control towers            |
| 401-0038 | Annual itinerant movements, by weight group and type of power plant, airports without air traffic control towers               |

# **Methodology**

---

## **Survey universe**

### **Coverage**

The survey covers all aircraft movements at Canadian airports with NAV CANADA air traffic control towers and flight service stations.

## **Methodology survey**

The Itinerant movement record is designed to capture:

- Aircraft identification
- Aircraft type
- The last station before landing at the reporting airport or the next station after take-off
- Arrival or departure
- Time of movement
- Runway used
- Flight rules (Instrument flight rules or Visual flight rules).

The Local aircraft movement record provides for reports of local movements by:

- Hour
- Single engine aircraft
- Multi-engine aircraft
- Jet aircraft
- Military aircraft
- Date of movement

Processing of aircraft movement statistics involves several stages. Monthly data by class of operation are released in Aircraft Movement Statistics - Monthly report, catalogue nos. 51-007-X and 51-008-X (TP-141). Annual tables, which may reflect revisions, are released in the two annual publications, catalogue 51-209-X Aircraft Movement Statistics – NAV CANADA Towers and Flight Service Stations: Annual report (TP-577) and catalogue 51-210-X Aircraft Movement Statistics – Airports Without Air Traffic Control Towers: Annual report (TP-577). In particular, data on itinerant movements by type of operation may reflect revisions as various sources of comparative information (data collected from commercial air carriers by the Aviation Statistics Centre, Statistics Canada) become available during the processing cycle. Finally, when revisions are required after the release of 51-209-X and 51-210-X, they are contained in the five year historical summary of subsequent editions of these reports. These revisions are also reflected in the CANSIM tables, both monthly and annual.

The records are completed daily, based on a twenty-four hour clock running from zero hour to 23:59. The times recorded are Coordinated Universal Time (UTC); however, published statistics are shown in local times. The records are transmitted to the Aviation Statistics Centre.

The Aviation Statistics Centre maintains a data base of parameter files of current information on all registered aircraft. The storage of this information reduces the reporting burden of the survey respondents and limits the element of human error associated with the preparation of source documents.

Other parameter files information includes registered aircraft identifications and their corresponding aircraft types, maximum take-off weights, types of power plant (piston, jet or turboprop); whether the aircraft are fixed wing, helicopters or gliders. This information also provides a basis for identifying type of flights (commercial, private and government) and the geographical area in which the flights take place.

The parameter files also include airport environment information against which the airport category is checked; the reported runway is validated and the time difference between UTC and Local is assigned.

**Data for airports are displayed in the section pertaining to the airport's tower category for the reference period**

**2010**

Fredericton International, New Brunswick - The flight service station closed and an air traffic control tower was opened in January 2010.

**2008**

Sudbury, Ontario – The air traffic control tower closed and a flight service station was opened in June 2008.

Fort McMurray, Alberta - The flight service station closed and an air traffic control tower was opened in October 2008.

Montréal/Mirabel International, Quebec - The air traffic control tower closed and a flight service station was opened in December 2008.

Kuujjuarapik, Quebec - the flight service station closed in December 2008.

St Anthony, Newfoundland and Labrador - the flight service station closed in December 2008.

## Data quality and limitations

---

Aircraft movement statistics are accumulated from data originating with air traffic control tower units or flight service station personnel. Because staff in these positions are highly trained in factual observation and reporting, the entries in the data bank are of a high quality.

The procedures for reporting aircraft movements on the Daily air traffic records by tower units are described in the NAV CANADA Air traffic control manual of operations (TP 703) Volume 1, Para. 1023 to 1023.5. Definitions for terms used in these paragraphs can be found in appendix I "Glossary of terms" of this report.

To maintain uniformity in the reporting of source data, air traffic control units have access to an "Air traffic designators" handbook (TP 143) listing the official Transport Canada aircraft type designators and the designators of various domestic and international air carriers. This handbook and another titled "Canada flight supplement" listing various airport codes serve as references to help ensure the reporting of the proper aircraft identity and the point of origin and destination of flights.

The processing system contains editing procedures designed to identify data errors occurring during transcription or during data capture of forms. Identified errors are manually corrected by Aviation Statistics Centre editing staff.

Errors may occur if an aircraft type code which exists is reported or data captured in error for a flight. For example, the reporting or keying of B727 for a flight actually performed by a B737 may not be detected during the system editing. That the aircraft type information is recorded by highly trained air traffic control tower staff using a common handbook of official aircraft codes will minimize this problem.

Similarly, the breakdown of the data on a geographic basis by use of location codes can be subject to error. For smaller locations, alphanumeric location codes are often used and the sequence of numbers and letters determines the geographic area to which the data are assigned. In some cases, where a sequence error has been introduced into the system either at the reporting unit or at data capture, a domestic movement may be classified as transborder or vice versa. The use of common manuals of location identifiers works to minimize this occurrence.

## Factors which may influence the data

### 2013

Significant winter storms struck much of Ontario, Québec and the Maritime provinces forcing flight cancellations and delays across Canada in December 2013.

On November 30th, 2013 (4:49pm), Edmonton City Centre Airport officially closed.

In November 2013, Air Canada rouge began year round flying between Toronto/Lester B. Pearson International Airport and Orlando, Florida with 3 daily departures and two more starting in December 2013.

Westjet launched a new non-stop seasonal service between Calgary International Airport and Miami International Airport in October 2013. The airline started service four times a week until December 14th. Effective December 16th the service increased to six times weekly.

In October 2013, Air Canada rouge launched service between Toronto/Lester B. Pearson International Airport and Las Vegas. The airline offered ten flights per week for the winter 2013-2014 season.

In July 2013, Air Canada began operations of its new leisure subsidiary Air Canada rouge. Flying out of Toronto/Lester B. Pearson International Airport and Montréal/Pierre Elliott Trudeau International, the new carrier will initially serve three European and ten Caribbean and Latin American destinations.

In June 2013, Westjet launched its new regional carrier, Westjet Encore, into operations. The new airline commenced flights to Fort St. John, Nanaimo, Vancouver and Victoria, British Columbia and Saskatoon, Saskatchewan.

Starting April 2013, Porter Airlines added a fourth round-trip weekday flight between Toronto/Billy Bishop Toronto City Airport and Windsor.

In April 2013, Westjet expanded its summer service from Hamilton Airport by adding daily non-stop flights to Edmonton, Halifax, Moncton and Winnipeg.

## 2012

Significant winter storms struck eastern Canada and the Maritime provinces in December 2012 forcing numerous flight cancellations and delays.

In December 2012, Sunwing began offering seasonal flights from Fort McMurray to Mexico.

Hurricane Sandy struck the northeastern United States and eastern Canada in October 2012 forcing numerous flight cancellations.

In June 2012, Porter Airlines commenced summer service to Mont-Tremblant, Québec with four weekly flights between Toronto/Billy Bishop Toronto City Airport and Mont-Tremblant International Airport.

In May 2012, WestJet launched a new non-stop seasonal service between Toronto/Lester B. Pearson International and Aruba, Netherlands Antilles. The airline also introduced daily non-stop flights to Chicago from both Calgary International and Vancouver International as well as from Vancouver International to Whitehorse International.

In April 2012, Porter Airlines increased weekday roundtrip flights from six to seven between Toronto/Billy Bishop Toronto City Airport and Boston's Logan International Airport.

Air Canada experienced some delays and cancellations of flights departing Toronto/Lester B. Pearson International and Montréal/Pierre Elliott Trudeau International in both March and April 2012. This was due to one day work actions by Air Canada ground handling employees.

In February 2012 (leap year) an additional day of aircraft movements were reported.

In January 2012, Porter Airlines started regular service between Toronto/Billy Bishop Toronto City Airport and Timmins, Ontario.

## 2011

Starting in October 2011, Porter Airlines increased weekday round trip flights between Toronto/Billy Bishop Toronto City and Boston's Logan International Airport.

Westjet launched twice-weekly service from both Hamilton, Ontario and Prince George, British Columbia to Las Vegas, Nevada in September 2011. Service was increased between Edmonton International and Calgary International from five to seven flights daily and between Vancouver International and Toronto/Lester B. Pearson International from five to six flights daily.

Hurricane Irene struck the northeastern United States and eastern Canada in August 2011 forcing numerous flight delays and cancellations.

Effective May 1, 2011 Air Canada started cutting the following routes: Ottawa/Macdonald-Cartier International to Thunder Bay; Ottawa/Macdonald-Cartier International to Dulles International in Washington, D.C.; Montréal/Pierre Elliott Trudeau International to Dulles International in Washington, D.C.; Calgary International to London, Ontario; and Calgary International to San Francisco, California. At the same time, Air Canada began daily service between Toronto/Billy Bishop Toronto City and Montréal/Pierre Elliott Trudeau International.

In May 2011, Porter Airlines added daily non-stop round trip flights from Toronto/Billy Bishop Toronto City to Windsor and Sault Ste. Marie. In September 2011, additional daily round trip flights between Toronto/Billy Bishop Toronto City and Sudbury as well as Myrtle Beach, S.C. were added.

In May 2011, WestJet began the reintroduction of flights from Hamilton, Ontario and added non-stop service from Vancouver International and Calgary International to Orange County, California and between Toronto/Lester B. Pearson International and Montréal/Pierre Elliott Trudeau International as well as between Toronto/Lester B. Pearson International and Ottawa/Macdonald-Cartier International.

Bearskin Airlines initiated daily non-stop flights between the Kitchener/Waterloo, Ontario and Montréal/Pierre Elliott Trudeau International in May 2011.

The main runway at Moncton/Greater Moncton International was closed for reconstruction from May to August 2011.

Heavy fog in downtown Toronto in April 2011 caused Porter Airlines to cancel numerous flights at Toronto/Billy Bishop Toronto City.

Significant winter storms struck the northeastern United States, Atlantic Canada and Britain in January 2011 forcing flight delays and cancellations. These winter storms continued to affect the northeastern United States and eastern Canada in February resulting in further flight delays and cancellations.

## **2010**

Effective September 2010, the Calgary Airport Authority no longer permits anyone with a student pilot permit to take off or land at the Calgary International Airport. This has resulted in increased training flights at the nearby Calgary/Springbank airport.

On August 4, 2010, work was begun on the closure of runway 16/34 at Edmonton City Centre.

Lightning storms, combined with dry conditions, caused a rash of forest fires in northern Manitoba and Saskatchewan and in the British Columbia interior in July 2010.

The spread of dense volcanic ash from Iceland resulted in the cancellation of numerous flights in April and May 2010.

SkyService, Canada's second-largest charter carrier, ceased operation at the end of March 2010.

Significant winter storms struck the eastern seaboard of Canada and the United States in early February 2010, forcing flight delays and cancellations. Winter storms struck the north-eastern United States, Atlantic Canada and Britain again in December resulting in numerous flight delays and cancellations.

The Vancouver 2010 Winter Olympics in February 2010 resulted in regular carriers scheduling additional flights and an influx of corporate jets. Conversely, airspace restrictions and enhanced security reduced the number of movements of the smaller local carriers.

## **2009**

Porter Airlines expanded its service to include St. John's International, Newfoundland and Labrador on October 5, 2009, Boston Logan effective September 14, 2009, and Thunder Bay, Ontario effective June 26, 2009.

# **Appendix I**

---

## **Glossary of terms**

### **Air carrier**

Aircraft operators, licensed by the Canadian Transportation Agency to transport persons, mail and/or goods by air.

**Level I:** Effective 2010, this includes every Canadian air carrier that, in the calendar year immediately preceding the reporting year, transported at least 2 million revenue passengers or at least 400 thousand tonnes of cargo.

**Level II:** Effective 2010, this includes every Canadian air carrier that, in the calendar year immediately preceding the reporting year, transported at least 100 thousand, but fewer than 2 million revenue passengers, or at least 50 thousand but less than 400 thousand tonnes of cargo.

**Level III.** Effective 2010, this includes every Canadian air carrier not classified in reporting level I or II that, in the calendar year immediately preceding the reporting year, realized gross revenues of at least 2 million dollars for the provision of air services for which the air carrier held a licence.

**Level IV.** Effective 2010, this includes every Canadian air carrier not classified in reporting level I, II or III that, in the calendar year immediately preceding the reporting year, realized gross revenues of less than 2 million dollars for the provision of air services for which the air carrier held a licence.

### **Aircraft movement**

A take off, a landing, or a simulated approach by an aircraft. ATC Manops amendment 8-8-83. NC-703.

### **Class of operation**

Aircraft movements are classified as either "Itinerant" or "Local".

### **Commercial**

Flights by aircraft operators licensed by the Canadian Transportation Agency to perform commercial air services. Commercial operations are divided into two categories: Air carrier and Other commercial.

### **Domestic itinerant movements**

Movements, at a Canadian airport, of aircraft departing to or arriving from another point in Canada.

### **FSS**

Flight service station.

## **Government-Civil**

Aircraft owned by federal, provincial and municipal bodies as well as foreign states, but excluding those owned by crown corporations, boards and commissions. Such aircraft are coded "3" under "Purpose" in the Canadian civil aircraft register.

## **Government-Military**

Aircraft of any branch of the armed forces of any nation.

## **I.F.R. flight**

A flight conducted in accordance with Instrument flight rules.

## **International movements**

Movements, at a Canadian airport, of aircraft arriving from or departing to a point outside Canada. International movements are subclassified into "transborder" (to or from a point in the United States including Alaska, Hawaii, and Puerto Rico), and "other international" (to or from points in countries other than Canada and the United States). Since aircraft movements are reported on the basis of place "arrived from" or "departed to", an arrival at Halifax airport from London, England would appear under "other international". If the same aircraft moved on to Toronto, both the departure at Halifax and the arrival at Toronto would be shown as "domestic".

## **Itinerant movements**

At airports with control towers and/or flight service stations: for the purpose of completing air traffic records, itinerant movements are considered as movements in which aircraft proceed to or arrive from another location; or where aircraft leave the circuit but return without landing at another airport. At airports without control towers: an aircraft movement in which the aircraft arrives from or departs to a point other than the reporting airport; or a movement by an aircraft that leaves the close proximity of an airport and returns without landing at another airport.

## **Local movements**

At airports with control towers and/or flight service stations: for the purpose of completing air traffic records, local movements are considered as movements in which the aircraft remains in the circuit. At airports without control towers: an aircraft movement in which the aircraft remains in the close proximity of the airport. Local movements are often carried out during training flights (touch-and-go), equipment tests, etc.

## **Maximum take-off weight**

The maximum weight for which the aircraft is licensed to operate. For operational purposes, all weights are rounded upwards to the next 1,000 kilograms. Thus 3,200 kilograms becomes 4,000 kilograms.

## **Other commercial**

Flights performed by Commercial aircraft operators not included in the Air carrier categories. Flying schools, agricultural sprayers, water-bombers, aerial photography and survey, etc.

## **Power plant**

The source of propulsion. For example, piston engines, turbo-propellers and jet engines. "Helicopters", in this report, include both piston and turboshaft-driven engines.

## **Private aircraft**

Aircraft used solely for private purposes, not for hire and compensation, which are classified as "Private" or "Private Restricted" in the Canadian civil aircraft register or similar registries of other countries. Owners include individuals, groups and business firms.

## **Runway 88**

Through control zone flights, i.e. flights which communicate with the tower while transiting the tower control zone to another destination without landing at the reporting airport. Data for these runways are not included in the grand total.

## **Simulated approaches**

Movements that are either missed instrument or practice instrument approaches without landing.

## **TC**

Transport Canada.

## **Tower control zone**

A controlled airspace within the proximity of an air traffic control tower, usually within a radius of less than 24 kilometres of the tower.

## **V.F.R. flight**

A flight conducted in accordance with Visual flight rules.

## **Weight group**

The classification of weight classes in groups for statistical purposes.
