

Dear Sir ;

The recommendation from our Executive Vice President , Safety Security Div. of EVA Airways

We would like to submit for your review –

From safety and security perspective , Canadian regulation framework is well established for being as a foreign carrier to comply with.

For future security and safety enhancement , I do have a recommendation, can authorities provide timely intelligence information

To carrier when departing from Canadian airport to overseas destination with the route involving fly over the conflict zone.

Kind Regards

Peter Yeh

Station Manager, YVR
