

## Aircraft Differences Training - Similar Aircraft Types - Requiring Ground Training and Flight Training, but no PPC

**Legend:**

\* - A pilot holding a High Performance type rating for a specific aircraft, and applying to obtain a two crew type rating for a similar aircraft must meet the differences type rating training requirements below, and must meet the Knowledge and Experience requirements in subparagraphs 421.40 (3)(a)(i) and 421.40 (3)(a)(ii) of the Standard.

**Note:**

An approved simulator may be used for meeting the flight training requirements.

The “Approved Training Program” is the Approved Air Operator Course or the Approved Aircraft Manufacturer’s Course.

This Chart is provided for guidance only - *amended 2011/03/22*.

Manufacturer	Model	Approved Training Program
Beechcraft / Raytheon	* BE30 / BE02 (1900 or 1900C)	<u>Ground training</u> - covering systems differences, cockpit layout, limitations, weight and balance. <u>Flight training</u> - covering handling differences above FL250.
British Aerospace	BA31 / BA32	<u>Ground training and Flight training</u> - covering systems and limitations and handling differences.
Cessna	* C500, C501 / C550	<u>Ground training and Flight training</u> - covering systems differences, limitations, performance, weight and balance, roles.
	* C500, C501 / C560	<u>Ground training and Flight training</u> - covering systems differences, limitations, performance, weight and balance, roles.
Learjet	LR20 / LR30 Series	<u>Ground training and Flight training</u> - covering systems differences, limitations, weight and balance, handling.
	LR20 Series / LR55	<u>Ground training and Flight training</u> - covering systems differences, limitations, weight and balance, handling.
	LR31 / LR35 / LR36	<u>Ground training and Flight training</u> - covering systems differences, limitations, weight and balance, handling.
	LR35, LR36 / LR55	<u>Ground training and Flight training</u> - covering systems differences, limitations, weight and balance, handling.
Avion de Transport Regional	AT42 / AT72	Approved program of differences training and checking between the two types.
